

WANT TO KNOW
THEIR PROFITSRailroads Would Have Shippers
Questioned.

TO THE ROCK ISLAND ROADS

Hearing Before Special Examiners for the Interstate Commerce Commission Is Transferred—Second Vice President Melcher Says Increased Expenses of His Road Are Due to Advance in Wages and Increased Cost of Operation.

Chicago, Sept. 1.—Coincident with the closing of the testimony for the Santa Fe system, before the special examiners for the interstate commerce commission, and the statement from the road's statistician that the increase in freight rates asked would net the Santa Fe only \$94,000 increase yearly in earnings, there came a suggestion that the railroads now on the defensive might change their tactics and seek to compel the shippers who oppose the advance in freight rates to declare how much they profit on the different commodities under consideration.

A request from Attorney F. J. Norton, counsel for the Santa Fe, for the names of the different associations of shippers represented at the hearing, that he might question certain of the shippers, gave color to reports that shippers would be asked about their profits. One prominent railroad man declared that inasmuch as the shippers had been protesting that the profits of the railroads were unreasonable, the railroads might well ask the shippers what their profits are on the commodities affected by the proposed increase in freight rates, so that the commission may know whether they are or are not seriously disturbed by the increase which they are fighting. While no definite statement of such an intent has been made it is not unexpected that railroads before the hearing is over will ask many questions of shippers concerning their profits and the rate of return which they enjoy on their invested capital.

Hearing Is Transferred.

When the initial presentation of the contentions of the Santa Fe system was concluded the hearing was transferred to the Rock Island roads.

F. O. Melcher, second vice president of the Rock Island company, told of increased expenses of the road in late years, due, according to him, to advance in the wage scale and increased cost of operation.

W. A. Poteat, chairman of the Trans-Missouri freight bureau, presented in the form of a tabulation a compilation of the rates in effect in the territory west of the Missouri river on freight shipped east or west from common points in Colorado and points west of the Missouri or the Mississippi rivers. The tables showed both the class and commodity rates and included the years 1900 to 1910. Similar compilations covering live stock and grain shipment rates were also presented and entered as exhibits.

Vice President Melcher said that in his opinion the road does not get more efficient labor by reason of the increased wages. Some of the increases, he said, were the result of threatened strikes which were settled, and some were granted after arbitration.

Mr. Melcher declared that no change is likely to restore any part of the wage increase unless the road can get more for hauling freight. He also commented on the legislative measures which had increased the cost of operating the railroad.

Mr. Melcher discussed the increase in the size of rolling stock and the difference between steel and wooden cars, and declared that the better equipment, which added to the cost of the operation of the railroad, was the result of a demand from the public for improved traveling and shipping facilities.

Record Month at South St. Paul.

St. Paul, Sept. 1.—With an increase in hog receipts of 175 per cent, sheep 115 per cent and cattle 95 per cent, the South St. Paul stock yards did a record August business during the month just closed. Increases indicated above as compared with the same month in 1909 indicate the heaviest business for an August at the yards in a decade, if not in the history of the yards.

Ends Life on Wife's Grave.

St. Paul, Sept. 1.—"I'm going to stay out here. Goodbye." With these parting words, N. P. Nelson, fifty-five years old, stood beside the grave of his wife in Union cemetery, lifted a bottle of carbolic acid to his lips and drank the contents. A few moments later his lifeless body lay stretched on the plot of earth which covers that of his wife.

Cloudburst Does Damage.

Devils Lake, N. D., Sept. 1.—This city has been visited by a cloudburst, an inch and three-quarters of water falling in twenty minutes. Thousands of dollars damage was done, as the basements of the whole city were flooded, the business section being hit hardest, goods stored in the basements being ruined.

ARSENIC POISONING.

The Torture That Ensues Before Death Brings Relief.

When a single dose of arsenic in sufficient quantity to be felt has been taken colicky pains, bowel disorder and perhaps nausea result. In the course of an hour after a poisonous dose has been taken an intense burning pain is felt in the esophagus and stomach. This spreads to the entire anterior portion of the lower part of the trunk. A sense of constriction at the throat and an acid, metallic taste accompany the pain. Then vomiting and relaxation of the bowels begin. As the case progresses the symptoms increase in intensity. Then comes a thirst that water will not allay, although it apparently increases the stomach disturbance. The victim groans and writhes.

Now he implores the doctor to save him. Then he begs to be killed and put out of pain. The extremities become icy. The pulse is small, feeble and frequent, and the breathing is labored, embarrassed and painful because of abdominal tenderness. The surface of the body becomes dark and of that bluish color that medical men call cyanosed. Violent cramps add their torture, exhaustion becomes collapse, convulsions or coma ensues, and death ends the agony. The torture lasts sometimes from five to twenty hours.

In some cases these symptoms occur, but in a modified form, and the doctor will apparently get the better of the disease. The remission will be but for a day or two. Then the abdomen will swell, and icy coldness will pervade the frame. Shivering will become pronounced trembling, then cramps, convulsions and death.

AMERICAN MANHOOD.

An English View of the Common People In This Country.

In all I spent four months traveling and lecturing in the eastern cities of the United States and met many men of varied classes. In my wildest dreams of the race I had never foreseen such wealth, such freedom, such equality. America is the land of the common people, as England is the land of the classes. If I were a young workman I would go to the States as soon as I could earn a passage, because once on her soil I should cease to be a laborer and become a man, which is a very different thing.

Better than the boundless wealth of America, better than any material benefit she can bestow, is this sense of manhood and equality that is as pervading as the air. Worse than the earthen floor of our peasant's hovel, still found in England's southern counties, and the starvation wages on which he lives is the slavish spirit that drags the cap from his head before the squire or crowds him into the ditch as the carriage passes by. He is not a man, only a laborer, one step above the serf—Joseph Burtt of London in Leslie's.

Trapping Muskrats.

Numbers of mechanical traps to catch muskrats have been invented and tried, but none gives more satisfaction than the old floating barrel trap that has been in use for many years. Both ends are left closed, and a hole about eight by twelve inches square is sawed in the side. A strong cleat is nailed across each end, the cleats projecting six or eight inches beyond the barrel, and upon the cleats are nailed two boards, one on each side of the barrel and several inches longer. Water then is placed in the barrel so that it will float with the Board platform about on a level with the surface of the pond or stream. About one-third of the barrel remains above water. Apples, carrots and other delicacies that the muskrat likes are placed in the barrel. In their attempts to get the bait the animals fall into the barrel and are unable to get out.—Exchange

Proving His Authority.

There was an Irish foreman of a gang of laborers who went to any lengths to show his men that he was the real boss. One morning this foreman found that his gang had put a hand on the track without his orders. "Who put that han'car-r on the track?" he asked. "We did, sor," one of the men answered respectfully. "Well," he said shortly, "take it off ag'in!" The laborers did so with some difficulty. "Now," said the foreman, "put it on ag'in!"

Great Scheme.

"What do you do," asked the one who had been married only a few months, "when your husband comes home late at night?"

"I pretend not to notice that it's late, and pretty soon he asks me if I wouldn't like to go to the theater or somewhere tomorrow afternoon."

Startling Encouragement.

"Was Amelia's father encouraging when you went to him to ask him for her hand?"

"Not very. He asked me to put the proposal in writing, so I couldn't back out, as all the others did."

Musical Note.

First Young Thing (during the sonata)—I just love Brahms, don't you? Second Young Thing—What are Brahms?—Musical Courier.

CONGRESSMAN M'CALL.

Decision in Ballinger Case Rests on His Vote.

BALLINGER MAY NOT
BE VINDICATEDDecision Depends on Vote of
Congressman McCall.

Beverly, Mass., Sept. 1.—Richard A. Ballinger, secretary of the interior is not to get vindication at the hands of the congressional committee of investigation as he has expected, according to reports received here. The attitude of Representative McCall, a Massachusetts Republican, which has just now become apparent, together with the non-participation of Senator Root, is said to make it obvious that the findings of the committee will be 6 to 5 against Mr. Ballinger.

Representative McCall maintained a position of impartiality throughout the hearing, giving no intimation of bias while the taking of evidence was in progress. In the meantime the position of Nelson, Root, Flint, Olmstead, Denby and Southerland was made clear by their conduct at the sessions of the investigating committee.

Senator Root, it is said, will cast no vote on the final report because he departed for Europe before the taking of evidence had been completed. His position of neutrality throws the balance into the hands of Representative McCall. This position, according to report, is forced upon him by the decision of the committee on the ground that he missed the more important part of the testimony submitted.

The official censuring of Mr. Ballinger by the investigating committee and the resultant of his disqualification therefore now appears probable. If he is declared unfit by the investigating committee a demand for his resignation by President Taft must follow.

Here it is said that President Taft has not been apprised of the new turn of affairs in the Ballinger situation. The fact that Senator Crane, who recently sought to bring about the resignation of Ballinger, and Representative McCall are both from Massachusetts is by some held to be significant.

However, the ultimate decision in the Ballinger case is up to McCall.

FIRE FIGHTER'S BODY FOUND

That of Larry Lavar Located Near Avery, Ida.

Missoula, Mont., Sept. 1.—The body of a man believed to be Larry Lavar of the Seltzer Creek fire fighting crew was found in the burned timber near Avery, Ida.

Supervisor Skeels reports no rain on the Kootenai forest, but the fires are now under control. The heavy rain of Tuesday and Wednesday has entirely extinguished the flames in the Nez Perces district.

A small crew of fighters equipped light for fast traveling was shipped to the forests in Granite county, where the sheepmen report a bad fire coming over the divide toward Skalkaho creek county. This fire is said to be twenty miles in length.

Another force of fifty men was sent to the Cedar and Trout creeks in the Coeur d'Alene district. Fires are reported creeping among those gulches.

Farmer Commits Suicide.

Aberdeen, S. D., Sept. 1.—Smith Rollins of Ashton killed himself by hanging. Rollins had been living with his brother on a farm between Ashton and Athol. Passerby discovered Rollins' body hanging from a tree. He was thirty-two years of age and unmarried.

Had His Hands Full.

Judge—Why didn't you seize the thief when you found him? Policeman—How could I? I had my club in one hand and my revolver in the other!—Pile-gable Blatter.

A Disaster.

Hostess—Mr. Squibs is going to sing a comic song. Guest—I know something would happen. I upset the salt at the dinner table.—Stray Stories.

CORROBORATES
THE EVIDENCE

Clerk's Testimony Backs Up That of Other Witnesses.

IT IS JUST AS SENSATIONAL

Witness Tells of the Laxity of the Illinois Central Car Inspectors—Says in Making Out Padded Bills Against Railroad Company He Had on File a List of the Numbers of the Railroad's Cars.

Chicago, Sept. 1.—Clarence H. Polly, formerly chief clerk for the Ostermann Manufacturing company, was the chief witness of the prosecution in the hearing of conspiracy charges against Frank P. Harriman, John M. Taylor and Charles L. Ewing in connection with the Illinois Central railroad car repair frauds.

Polly's testimony was quite as sensational as that given on Monday and Tuesday by Theophil Reuther and Fred C. Barrott, also former employees of the Ostermann concern. Polly corroborated to a great extent the evidence given by Reuther and Barrott, particularly regarding the laxity of Illinois Central car inspectors.

The witness said that in making out padded bills against the Illinois Central he had on file a list of numbers of the railroad's cars.

"Did the Ostermann company ever depart from the car inspector's records in submitting repair bills to the Illinois Central?" asked Attorney Walter L. Fisher for the prosecution.

"Yes."

"Under whose orders?"

"Henry C. Ostermann," replied Polly.

"What were the orders given?"

"To get as much on the cars as we could."

"What was the average amount of the bills?"

"Amount of Bills Varied."

"They varied from \$300 to \$400 a car."

"Who gave instructions as to the change of average?"

"Ostermann."

"Were there any records in the office of the company whereby the actual work done on the cars was shown?"

"Yes," the witness replied, "but they were never referred to."

Polly was shown a memorandum book said to have been kept by William Schaeffer, one of the Illinois Central's inspectors at the Ostermann plant. This book contained the numbers of about 400 cars.

"What was said about these numbers?" asked Attorney Fisher.

"These numbers," said Polly, referring to the book, "are the numbers of cars which Ostermann said to make bills for and run to the limit."

Attorney Fisher asked Polly whether the stamp of "R. Rother, Inspector, I. C. R." indicated that the latter had inquired into all the repairs made up on railroad cars. "Did he always put the stamp on the bills?" asked Attorney Fisher.

"Well, sometimes he did and sometimes he didn't, and then I did," was the response.

"What was the occasion of your O. K. upon the bills?"

"Sometimes Rother was pretty busy and told me to do it," was the reply.

Even the defendants laughed at this juncture in Polly's testimony.

Polly said that he did not think the inspector whose name he signed or stamped ever made an inquiry to determine whether the material set forth in the bill was ever supplied.

No Suffragists on Programme.

St. Paul, Sept. 1.—Despite the personal inclinations of B. N. Baker, president of the National Conservation congress, to look with favor on the woman suffrage movement, the suffragists of Minnesota will not be represented on the list of speakers at the coming congress. In reply to Mrs. S. A. Stockwell of Minneapolis, president of the state suffrage organization, President Baker has written that he cannot put a suffragist speaker on the programme.

Fires in the Black Hills.

Deadwood, S. D., Sept. 1.—According to the statements of the forestry officials here the best timber sections in the Black Hills are being destroyed by the fires that are now raging in five different places. The first fires were no sooner controlled than fresh ones broke out at Red Fern, Dumont, Mystic, Custer Peak and Aztec. They are burning fiercely and another 100 fire fighters were rushed down the Burlington on a special.

Fire in a Flour Mill.

Medford, Wis., Sept. 1.—Fire broke out in the Perkins flour and feed mill, but by reason of the efficient work of the volunteer fire department, only a portion of the mill was destroyed, together with about 1,200 bushels of flour.

Justifiable Homicide.

St. Paul, Sept. 1.—After remaining out but a few minutes, the coroner's jury in the death of Charles J. Welch, who was shot dead by Alton J. Ray, when the former attacked him Tuesday morning, returned a verdict of justifiable homicide.

Roosevelt County Proposed.

Medora, N. D., Sept. 1.—Three petitions have been presented to the county commissioners for the division of Billings county. One asked that the four northern tiers of townships be segregated, to be known as Roosevelt county; another that the four southern tiers be segregated, to be known as Butte county, while the third asks that a part of the three western tiers be segregated to be known as Golden county.

KING NICHOLAS.

Montenegro Elects Him as Its First Sovereign.

NICHOLAS NOW IS A KING

Montenegro Raised in Rank With Much Ceremony.

Cettigne, Sept. 1.—Montenegro has made a kingdom and a king. Cettigne presents a wonderful spectacle, and the streets of the village capital, which are beautifully adorned with festoons, Venetian masts and banners, are densely crowded with a picturesque throng.

The skupstina assembled in secret session and voted an address to Prince Nicholas, requesting him to assume the royal title. As soon as this solemn act was completed the crown prince appeared on a balcony of the palace and proclaimed the new kingdom to the assembled army and people. King Nicholas, wearing the national costume, stepped upon the balcony, accompanied by the queen and all the attending royal personages, and acknowledged the salutations of the multitude.

At the conclusion of the service a salute of 101 guns was fired. Official receptions were held, and the town re-echoed with the strains of military bands and with the singing of national songs.

Big Farm Is Sold.

Lake City, Minn., Sept. 1.—A deal has been made whereby P. H. Rahilly disposed of his 1,200-acre farm to James McCabill of Duluth for \$100,000. Mr. Rahilly personally conducted the operation of this large farm for fifty-two years.

PRESIDENT TAFT
LAYS CORNERSTONE
Also Says Beverly Will Be Summer Capitol Two Years More.

Beverly, Mass., Sept. 1.—In laying the cornerstone of the new Y. M. C. A. building in this city President Taft officially announced that Beverly would continue to be the "summer Capitol" of the country, "at any rate" for two years more. Mr. Taft had intimated earlier in the season that he found Beverly much to his liking, but his official public announcement called out great cheers from his hearers. Mr. Melville Woodbury, the presiding officer at the ceremonies, referred to the president as "Beverly's most distinguished summer boarder."

The president worked hard at the cornerstone. The big block of granite measured three by four feet, and no mortar had been spread when the president took up the silver trowel. He worked in a silence for nearly five minutes, and then, with a somewhat reddened face, he looked up and laughingly inquired:

"Where's the mason? Where's my boss?"

Every one laughed, and the mason stepped forward. He gave some directions, but did not offer to relieve the chief magistrate of the trowel, and Mr. Taft resumed his job. When he had applied the last of the cement the mason smoothed off the edges, and the stone was lowered to its place. To make his service thorough the president seized hold of the granite block and helped swing it on the foundation. The crowd, which had watched with much amusement, applauded vociferously. At the conclusion of the exercises the president joined the throng in singing "America."

Serious Stabbing Affray.

Clark, S. D., Sept. 1.—A serious stabbing affray occurred at Crocker, in this county. A party of men were drinking heavily and while playing cards, began to quarrel. It finally culminated in the serious cutting of Harry Mack, John Knudston and Chris Sime, the first named of whom is in a critical condition. The cutting was done by strangers who hail from Missouri.

Colonel Roosevelt Delivers Address to Kansans.

OPPOSES SPECIAL INTERESTS

Former President Characterizes the Issue of the Day as the Struggle of Free Men to Gain and Hold the Right of Self-Government as Against the Special Interests Who Twist the Methods of Free Government.

Oswatimie, Kan., Sept. 1.—In clear and emphatic fashion, Theodore Roosevelt announced his political creed here. It was a creed of progressive Republicanism. It aligned him definitely with the progressive movement within the party as a whole. It placed him on record as an advocate of some policies which find favor with the progressives, and as an opponent of every "special interest" which he believes exercises a sinister influence upon the affairs of the people.

Colonel Roosevelt characterized the issue of the day as "the struggle of free men to gain and hold the right of self-government as against the special interests, who twist the methods of free government into machinery for defeating the popular will."

"The issue is joined, and we must fight or fall," he said.

The ex-president declared himself in favor of these principles:

First—Elimination of special interests from politics. Second—Complete and effective publicity of corporation affairs. Third—Passage of laws prohibiting the use of corporate funds directly or indirectly for political purposes. Fourth—Government supervision of the capitalization not only of public service corporations, but of all corporations doing an interstate business. Fifth—Personal responsibility of officers and directors of corporations that break the law. Sixth—Increase in the power of the federal bureau of corporations and the interstate commerce commission to control commissions industry more effectively. Seventh—Revision of the tariff, one schedule at a time, on the basis of information furnished by an expert tariff commission. Eighth—Graduated income tax and graduated inheritance tax. Ninth—Readjustment of the country's financial system in such a way as to prevent repetition of periodical financial panics. Tenth—Maintenance of an efficient army and a navy large enough to insure for the nation the respect of other nations, as a guarantee of peace.

For Benefit of All the People.

Eleventh—Use of national resources for the benefit of all the people. Twelfth—Extension of the work of the departments of agriculture of the nation and state governments and of agricultural colleges and experiment stations so as to take in all phases of life on the farm. Thirteenth—Regulation of the terms and conditions of labor by means of comprehensive workmen's compensation acts, state and national laws to regulate child labor and the work of women, enforcement of better sanitation conditions for workers and extension of the use of safety appliances in industry and commerce both in and between the states. Fourteenth—Clear division of authority between the national and the state governments. Fifteenth—Direct primaries, associated with corrupt practices acts. Sixteenth—publicity of campaign contributions not only after election, but before election as well. Seventeenth—Prompt removal of unfaithful and incompetent public servants. Eighteenth—Provisions against the performance of any service for interstate corporations or the reception of any compensation from such corporations by national officers.

While Colonel Roosevelt's speech is regarded by many of those who heard it as carrying him further than before with the progressive movement, the colonel coupled with his declaration a warning against the extremist injecting an extemporaneous remark on the subject into his prepared speech.

"I do not want our people to follow men whose intentions are excellent but whose eyes are a little too wild to make it safe to trust them," he said.

The speech was delivered in a grove on the battlefield where John Brown fought the Missouri raiders on Aug. 30, 1856. The setting was picturesque. Thousands of people had gathered for the dedication of the battlefield as a state park.

Mayor Gaynor Will Recover.

New York, Sept. 1.—The five physicians who have been in attendance on Mayor Gaynor since he was shot by James J. Gallagher visited him at his home in St. James, L. I., for what it was said afterwards would be the last consultation. They declared Mayor Gaynor would fully recover from his wound.

A Winning Play.

Old Friend—Your plan is a most excellent one. But do you think your wife will agree to it? Married Man—Oh, yes. I'll tell her some one else suggested it, and I'll call it an idiot's idea.

You can't order remembrance out of a man's mind.—Thackeray.

Dr. W. J. Marley, superintendent of the State Sanatorium near Walker was in the city this afternoon. His assistant, Dr. H. H. Neal, passed through Brainerd on his way home to St. Paul.

Charles Johnson, of Hamilton, Mont., formerly a resident of Brainerd, is visiting Dr. W. A. Erikson and other friends in the city. He is now proprietor of an automobile garage at Hamilton.

See Fisher-Vaughn Co. for all kinds of coal at reasonable prices. 69tf

John and Henry Schib, of Denver, Col., and Christia Schib, of Chicago, Cal., and Mrs. O. Beebe of Chicago, are in the city, called here to attend the funeral of their father, John Schib, which occurred Wednesday.

OCCIDENT EXCELLS

Miss Eleanor Johnson entertained a party of friends on Wednesday evening among whom were the Misses Lulu Husemann and Gena Olson, Bert Dunn, Gideon Bye and Arthur Anderson. The evening was pleasantly spent in playing cards after which a lunch was served.

\$100 Reward \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. Cheney & Co., Toledo, O. Sold by all druggists, 75c. Take Hall's Family Pills for constipation.

NORTH LONG LAKE

J. P. Jensen and P. Madsen commenced threshing last Friday.

Mrs. Erwin and daughters Sarah, Belle and Lillian and son William were visiting over Sunday at Mrs. Wm. Johnston's.

Mrs. R. B. Thompson and children went down to Daggett Brook last Thursday to visit Mrs. Thompson's mother. They returned home Sunday.

Mrs. Hughey and Mary were calling on Mrs. P. S. Taylor Thursday. Mr. and Mrs. P. Madsen and daughters Mabel and Ethel, spent Sunday at O. Olson's.

Mrs. P. J. Albertson and sons Henry and Lawrence returned home Thursday from a weeks visit at Royalton with Mrs. Albertson's parents.

Mrs. C. W. Wheeler and children were visiting Mrs. Wheeler's mother Mrs. P. S. Taylor Monday.

Margaret and Rachel Thompson were visiting May Myers Sunday.

E. R. Richards was quite sick last week, Thursday and Friday.

Mr. and Mrs. Edward Thelander and children and two friends, Mr. Reeves and Miss Perley, of Great Falls, Mont., are visiting Mr. Thelander's parents.

Clara Larson left for Walker last Wednesday.

The young people are going to have a dance in E. R. Richards's barn Thursday evening.

COUNTRY COUSIN.

Stagers Skeptics.

That a clean, nice, fragrant compound like Bucklin's Arnica Salve will instantly relieve a bad burn, cut, scald, wound or piles, staggers skeptics. But great cures prove its wonderful healer of the worst sores, ulcers, boils, felons, eczema, skin eruptions, as also chapped hands, sprains and corns. Try it. 25c at all druggists.

SOUTH BAY LAKE

The farmers in this neighborhood are all busy haying.

Freddie Wulf helped John Peterson stack hay last Friday afternoon and on Saturday Able Christensen joined the crowd.

Fred Wulf, Sr., has been busy rebuilding John Norain's fence around his house. He is now busy cutting Charley Coleman's hay.

O. P. Erickson, of Deerwood, was calling on John Peterson last Monday.

Lena Christensen is home on a short visit from the St. Cloud Normal. She expects to go back again soon to attend school there this coming winter.

Mr. and Mrs. John Peterson and little Irma were calling at Deerwood and Crosby last Sunday.

Mr. and Mrs. Martin Seipp were callers at John Peterson's last Sunday but found no one at home.

Martin Seipp and Will Flint are busy helping put up hay on John Nordin's meadow.

The mail carriers motorcycle blew up the other day and now he makes the trip with the horse and wagon, (which never fails) while he is waiting for repairs for his motor.

BAY LAKE SAVAGE.

The following list of books have been ordered for the school library for Dist. No. 42.

Lisbeth Longfrock, "Pete the Cowpuncher, Cuore (heart), For King or Country, Jaun and Juanita, How Jack Came to College, Kent Hampden, Katrina, Paul Dombey, Cattle Ranch to College, Jackanapes, Pelham and His Friend Tim, Jed, Jack in the Rockies, Jack the Young Trapper, Man Without a Country, Dale and Fraser (sheepmen), Ice Queen, Ranch on the Oxhide, Dolph Heyliger, Betty Leicester, Dog of Flanders, King of the Bronchos, Crofton Boys, Anne of Green Gables, Derrick Sterling, Dormmates, Silent Pete, Dandelion Cottage, Treasurer Cottage, Little Smoke, Timothy's Guest, Seven Little Sisters.

The Best Hour of Life

is when you do some great deed or discover some wonderful fact. This hour came to J. R. Pitt, of Rocky Mt., N. C., when he was suffering intensely, as he says, "from the worst cold I ever had, I then proved to my great satisfaction, what a wonderful cold and cough cure Dr. King's New Discovery is. For, after taking one bottle, I was entirely cured. You can't say anything too good of a medicine like that." Its the surest and best remedy for diseased lungs, hemorrhages, lagrippe, asthma, hay fever—any throat or lung trouble. 50c and \$1.00. Trial bottle free. Guaranteed by all druggists. tfs

CROSS LAKE NEWS

A good many fires are reported around Eagle Lake.

The club dance seems to grow in interest. A large well-behaved crowd attended Saturday night.

Mr. and Mrs. Frank Gordon returned from Brainerd Wednesday. Miss Georgia Frost accompanied them.

Tuesday last was a dark day. Everybody ate dinner by lamp light. It was pretty scary but of course we wasn't afraid.

We are sorry to hear that Mr. and Mrs. Nickerson lost one of their little ones last Thursday from bowel trouble. We hear the other children are ill with the same disease, but are improving.

The south wind Friday played

WILL CARRY ORE THIS SEASON

Cuyuna Range Will Ship This Fall Over the New Soo Railway

NEW ERA FOR THIS RANGE

Expected that One Million Tons of Ore Will be Shipped Next Year

The Duluth Herald this morning prints the following good news of the greatest importance to the Cuyuna range and the range cities of Brainerd, Deerwood, Cuyuna and Crosby. It prints this in big headlines on its first page:

Shipments of iron ore from the Cuyuna range, named for the Cuyler dams and his dog Una, will be sent forward over the new Soo line some time this fall. The initial movement will consist of 50,000 tons of Bessemer ore from the Kennedy mine of the Rogers-Brown company. The ore will come to Duluth over the new Soo line and will be taken to Ashland, Wis., where it will be placed in bottoms for lake shipments. As soon as the Soo's ore docks at the head of the lakes are completed, the ore will be loaded into holds across the bay. Three additional mines will go on the shipping list next year. The prospective producers are the Amour, Interstate and Section 17, operated by the Rogers-Brown company. The shipments of ore next year are estimated at 1,000,000 tons. About 10,000 tons of ore is on the dump at the Kennedy mine ready for shipment.

Within two weeks Soo trains will be running into Crosby, which Geo. I. Huss, division engineer, calls the "Hibbing of the Cuyuna range." A pur two miles in length is being constructed from the Soo's Cuyuna line into the town, which has graded and lighted streets, several miles of cement walks, and modern buildings of substantial construction.

The beginning of iron ore shipments from the Cuyuna denotes a new era in the history of that range. It also is of great importance to Duluth, and will undoubtedly be a factor of notable effect in the present commercial expansion of this town. The prosperity of Duluth is due in a large measure to the proximity of the Mesaba and the Vermilion iron ranges, and the addition of another iron-bearing area to the territory dominated by Duluth commercial interests is of so great importance that it can hardly be under-estimated.

The ore deposits of the Cuyuna range are of such a nature as to make underground mining imperative. This kind of mining necessitates the steady employment of a large number of men. In open-pit mining the working forces are large in summer but are reduced to a minimum in the winter. The change of seasons does not greatly affect the working forces in underground mining. The prosperity of the Cuyuna seems to be on a solid basis, and merchants will not be put in a position where they will barely make a living in one season while enjoying a lucrative business in another. Their trade will be substantial, and their interests will be identical with the interests of Duluth, which is the distributing point nearest to the new range.

George M. Huss, engineer in charge of the construction of the Cuyuna line of the Soo and division engineer of that road, said today that he has established a record for rapid railroad building in the Northwest in the construction of the new line between Duluth and Thief River Falls, Minn., the road that will give this city a new line to Winnipeg, his territory a new line from Winnipeg to Chicago, and the country a new transcontinental line from the Atlantic to the Pacific by the way of the Head of the Lakes and the South shore, which is controlled by the same interests that dominate the Soo.

The Thief River Falls extension is fully completed with the exception of twenty-five miles north of Bemidji. It will be laid into Bemidji in two weeks. The Soo was broken for the extension July 12, 1909, at Moose Lake, Minn., and by Sept. 12 the 242 miles line will have been completed.

In the last three years the Soo has built and acquired lines of railroad in the territory adjacent to Duluth which gives it a commanding position in the Lake Superior region. It might the Wisconsin Central and completed the extension from Ladysmith, Wis., to Duluth. It built a line from Duluth to Brouten, Minn., the main line between the Twin Cities and the Pacific Northwest. This line will be an important feeder for grain and has opened up a highly productive agricultural area. The Soo took over and completed the Cuyuna range railroad and laid 242 miles of rails to give this city a new line to Winnipeg, the Pacific Northwest and the new territory opened by the extension, which enters a territory hitherto controlled by the interests.

The Soo has 300 steel ore cars available immediately for the ore business of the Cuyuna and the movement will be handled expeditiously when the shippers are prepared to send out their product.

APPOINTS DELEGATES

Pres. Halstead of Commercial Club Announces List of Delegates to Conservation Congress

At the request of the committee in charge of the conservation congress, which convenes in St. Paul next week beginning with Monday, Sept. 5th, President A. J. Halstead of the Commercial Club has appointed Werner Hemstead, N. H. Ingersoll and R. R. Wise as delegates to represent the Brainerd club at that congress.

In connection with this Congress there will be an elaborate exhibit of the mining industry of this state and it will be under the direct supervision of Mr. John Uno Sebenius, general manager of explorations for the Mines of the United States Steel Corporation. The Cuyuna Iron ore district will be represented and special maps have been prepared to illustrate its geological conditions, and these maps will be supplemented by drill cores of the different formations and by samples of the ores taken from the existing shafts. Carl Zapffe, geologist for the Northwestern Improvement Co., has been delegated by President Halstead to demonstrate at the exhibit. Mr. Salisbury Adams, of Deerwood, will also demonstrate during the latter part of the week.

PUBLICITY COMMITTEE.

FALLS HEIR TO \$23,000

Lewis Lee Has Received Word That he Secures a Share of a \$250,000 Estate

HIS BROTHER PETER LEE DIED
Lands are Situated Mostly in Oregon Where Deceased Resided Since 1870

Lewis Lee, for many years an employee of the Slipp-Gruenhagen Co. has just received the news that he has fallen heir to a large estate left by his brother, Peter Lee, who died July 2, at Portland, Oregon.

The estate, whose lands are mainly in Oregon, is said to be valued at about \$250,000.

The deceased was an old resident of this western state as he has resided in Oregon since 1870.

The letter from his widow which conveyed the glad tidings says that Lewis Lee's share of the estate will amount to \$23,000. Another brother in Wisconsin gets a share under the terms of the will. The deceased is survived by his wife and leaves no children.

MUSIC AND DRAMA

"Flower of the Ranch" Tonight
"The Flower of the Ranch," which comes to the Brainerd opera house on Thursday, tonight, is a musical play in three acts, all the scenes of which have been laid in the rugged west, with colorful and complete scenic settings of great beauty. The book, lyrics and music of the play have been written by Joseph E. Howard, composer of "The Time, the Place and the Girl," "The Girl Question," "Honey-moon Trail," "A Stubborn Cinderella," "The Flirting Princess," "The Goddess of Liberty" and other successful works. There are more than a dozen swinging song successes in "The Flower of the Ranch." Among these is "The Pajama and the Nighties," a quality humorous and colorful ditty that tells a pretty story of a clothes line flirtation. The music is all in Joseph E. Howard's best vein and when it is remembered that this author has provided the music for so many successes, something out of the ordinary may be expected.

FOLEY'S ORINO LAXATIVE
FOR STOMACH TROUBLE AND CONSTIPATION

WANTS BETTER FREIGHT SHED

Deerwood Commercial Club to Take up This Matter With N. P. Officials

GREATLY NEEDED IN TOWN

Other Items of a Social Nature of this Busy Town of the Cuyuna Range

Deerwood, Minn., August 31.—A committee of the Commercial club is conferring with the Northern Pacific railway officials relative to having better arrangements at the depot for caring for freight received. There is a woeful lack of storage room. Freight is kept in cars along the side track and is sometimes very inconvenient to get at. Freight should be stored in a freight shed and not in a car on some siding. Deerwood does enough business to be entitled to a decent freight shed of adequate size.

Mrs. Harry Patterson and daughter, Mrs. Fred Gormely went to Parsons, Kan., and to Iowa to visit friends and relatives.

Miss Katherine Wright, a sister of Mrs. Thomas Watson, has returned to her home in Washington, D. C.

Rev. G. Abrun Swanson, pastor of the Presbyterian church, preached his last sermon in Deerwood last Sunday and has returned to Illinois.

Roland Manuel, of Owatonna, is visiting his sister, Mrs. H. Hage.

Mr. Bartens, the contractor, is erecting two residences, 24 by 36, two stories high, for Arthur Haglund.

On September first occurs the wedding of Albert Nygrod and Miss Victoria Nelson, the ceremony being performed at the residence of Mr. and Mrs. Oscar Carlson. In the evening dinner for twenty-five guests will be served at the Cafe Guelker.

On August 21st occurred the marriage of Frank A. Edson and Miss Fanny Walbridge Carter, daughter of Mr. and Mrs. B. B. Carter at Devil's Lake, Wis. The newly married couple will be at home to their friends at Deerwood after October first. Mr. Edson is the manager of the Cuyuna Range Townsite Co.

Stanley Smith, of Brainerd, is working for Charles Osterlund.

The Ladies Aid of the Presbyterian church met this afternoon with Mrs. O. E. Peterson.

Conrad Fehland is building a residence in Crosby.

Mr. Burrell, the principal of a Duluth school, is visiting in Deerwood. Miss Annie Julum, of Aitkin is visiting Mrs. T. R. McBride.

Last Tuesday afternoon three classes of the Methodist Sunday school enjoyed a pleasant launch picnic on Serpent lake.

Miss Jessie Whitten is visiting friends in Duluth.

On September 12th and 13th a Sunday school convention will be held in the village at the Methodist church. Prominent speakers will be present to deliver addresses and a large attendance from Brainerd is expected, as well as some of the surrounding towns.

John Dover, of Wadena, has been making a couple of trips to Deerwood this week looking after the location of a new yard to be put in at Crosby, on the Soo line.—Staples World.
Ernest M. Bickford was up from Deerwood last week and returned last Saturday. Mrs. Bickford and the children accompanied him, to remain a few weeks, and if they like the country may settle there. Mr. Bickford is working some miles out from Deerwood, near Crosby.—Staples World.

Miss Lucile Bradley and guests, Miss Gladys Miller, of Buffalo, Miss Louise Norpell, of Newark, Ohio, will leave Monday for a two weeks outing at Deerwood.—Duluth Herald.
Mr. and Mrs. H. A. Hanson of 30 East Fifth street are spending a few weeks at Deerwood.—Duluth Herald.

Miss Olga Skau will visit friends in Duluth next Sunday.

Miss Hazel Hilyar and Miss Viola Olander are visiting friends in Aitkin.

Miss Josephine Hilyar and Miss Nellie Rudolph will visit in Brainerd this week.

Mrs. John Hennis went to Duluth today.

Arthur Barry, the chemist at the O'Connell laboratory, will visit in Minneapolis next Friday.

The second addition being planned for the Cuyuna Range Townsite Co. will be put on the market September 10th. Louis Knutsen, of Brainerd, is in charge of the surveying.

Porter B. Markell will leave tomorrow for Duluth to visit his friends. Some of his best friends hint that Porter is soon to become a benedict.

Miss Maude Hage is expected to return from her European voyage the middle of September.

C. W. Musser, of Iowa City, is spending his annual vacation in Deerwood.

L. E. Garrison, the county surveyor, is engaged in surveying for C. W. Musser who has purchased the Robt. Coffin farm lying between Rice lake and Serpent lake.
